

# Surgery/Anesthesia Release Form

- **ALL NEW PATIENTS WILL HAVE A BRIEF EXAM PRIOR TO ANESTHESIA (\$25.00)**

Patient Name \_\_\_\_\_

Date \_\_\_\_\_

I, the undersigned, do hereby certify that I am the owner (duly authorized agent for the owner) of the animal described above, that I do hereby give Bradley J. Lyon, DVM, his agents, servants, and/or representatives full and complete authority to perform: \_\_\_\_\_

I understand that my pet will be anesthetized and then intubated (insertion of a tube into the trachea or wind pipe). I understand that there is always a risk of anesthetic and surgical complications anytime these procedures are performed. I do hereby forever release the said Doctor, his agents, servants, or representatives from any and all liability arising from said procedure(s) on said animal.

Did you keep your pet off food for at least 12 hours?

Yes

No

### **Optional Procedures:**

- Pre-Anesthetic Blood Chemistry-10 Idexx Profile (\$49.00)

Yes

No

\*Please note Pre-Anesthetic Blood Profile helps alert our surgeon to the presence of possible kidney or liver disease, glucose(sugar) and total protein(dehydration) abnormalities that could complicate the procedure. These conditions may not be detected without a pre-anesthetic profile thus not allowing for the most appropriate and safest anesthetic regime to be administered.

- Intravenous Catheterization & Fluids (\$30.00)

Yes

No

\*We recommend the placement of an IV catheter and use of IV fluids during all anesthetic procedures. This allows us to have quick, available access to the circulatory system (blood) in case of an unforeseen emergency. The fluids help provide support to the circulatory system and prevent dehydration.

- HomeAgain Microchip (\$36.00)

Yes

No

- While your pet is here, would you like us to perform any additional services?
